DYSPEPSIA.
IS that misery experienced when we suddenly become aware that we possess a diabolical arrangement called a stomach. The stomach is the reservoir from which every fibre and tissue must be nourished, and any trouble with it is soon felt throughout the whole system. Among a dozen dyspeptics no two will have the same predominant symptoms. Dyspeptics of active mental power and a bilious temperament are subject to Sick Headache; those, fleshy and phlegmatic have Constipation, while the thin and nervous are abandoned to gloomy forebodings. Some dyspeptics are wonderfully forgetful; others have great irritability of temper.
Whatever form Dyspepsia may take, one thing is certain,
The underlying cause is in the LIVER,
and one thing more is equally certain, no one will remain a dyspeptic who will

It will correct Acidity of the Stomach,
Expel foul gases,
Allay Irritation,
Assist Digestion,
and, at the same time
Start the Liver to working, when all other troubles soon disappear.
"My wife was a confirmed dyspeptic. Some three years ago by the advice of Dr. Steiner, of Augusta, she was induced to try Simmons Liver Regulator. I feel grateful for the relief it has given her, and may all who read this and are afflicted in any way, whether chronic or otherwise, use Simmons Liver Regulator and I feel confident health will be restored to all who will be advised."—WM. PIANOS.
GAINED FIRST PREMIUM FOR GREATEST merit at the New Orleans Cotton Centennial and WORLD'S Exposition for refined and wonderful power of tone, elegance of design, and superb finish. Only piano endorsed by United States commissioners, from each of the States. Cases finest carved, rosewood finish—finest imported double repeating action—three strings throughout of best patent steel wire—keys best ivory. Our new patent steel tuning device, instead of wood, is the greatest invention ever made in pianos. It consists of stationary STEEL tuning pins that are set in a mold and molten STEEL is run round the pins keeping them solidly in place. A thimble or shell pin is made to exactly fit the stationary pin revolving therein; thus the strings wind round the pins. After the strings are properly stretched the piano can never get out of tune, the rest plank being of STEEL not affected by extremes of climate. This will be appreciated by all musicians in city or country. It will stand twenty years without tuning and is good for 100. No other piano has this improvement.
Great strength and durability is another advantage. In other pianos holes are bored in wooden boards and tuning pins inserted. The pins turn round in this board and cannot stand permanently in tune, and it often cracks, splits, dries out, becoming utterly, totally and entirely worthless as a musical instrument. Our STEEL tuning device is in no way affected by such casualities, and the sounding board is so constructed that our pianos can never become thin or metallic in tone. They are always in tune and the expense of tunning is saved. This patent alone is worth millions and makes our piano the greatest in the world. Prices are no higher than other pianos. Buying direct from us, the largest manufacturers, you save $100 or $200—dealers' profits. Don't mind the ominous growlings of dealers and agents, who see their chances of selling a poor piano at a big profit of $200—slipping away—pity them.
We guarantee our pianos ten years, 200 styles. We have put our prices at lowest bed-rock for Cash.
A $600 Piano for $259.50; a $900 Piano for $297.50; a $1200 Piano for $375.50; a $1500 Piano for $475.50.
Upright Cabinet Grands, with stool and rubber cover shipped on board cars at S. F., to any part of the United States, Canada or Mexico. Our terms are cash with order. If not as represented money returned. We occassionally have good second-hand pianos, made over at $100 to $300, which we take in part payment for our own. Write or call for catalogue, free.

WHAT SHALL WE WEAR?

BATHING AND WALKING SHOES DESIGNED FOR THE SEASHORE.

Imported Muslin Dresses for Midsummer Wear That Revive Flounces and Tucks. A Picturesque Bonnet and Dress for Little Girls.

The present styles in dress for little people are both picturesque and becoming, in pleasing instance of which are the models shown in our cut of a Normandy cap and a blouse frock for small girls.

NORMANDY CAP—BLOUSE FROCK.

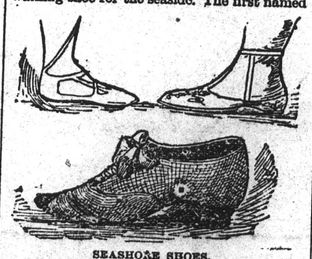

The pretty bonnet or cap may be made of white or colored cambric. The closer the pleats are laid in front, the better they stand. The back edge of the cap is trimmed with a small frill of the stuff, and the front one with a cambric box pleated ruche set on to a strip of the same.
The blouse frock is made with a yoke embroidered with rows of coral stitch in colored cotton, the sleeve being also embroidered to match, leaving a puff at the shoulder and wrist, the latter finished with a round band. The above models and descriptions are furnished by The Season.

French Muslin Dresses.

A recent importation of French dresses for midsummer wear is thus described by Harper's Bazar: These dresses are made up of muslins of various kinds, figured lawns, striped percales of the softest finish, and batistes with quaint Japanese designs upon them, like hieroglyphics in the bright, new scarlet called cactus on ecru grounds, or in the grayish Japan blue on white.
Flounces are revived for these pretty gowns, and tucks without number, the only trimmings not of the material being slight insertions of embroidery, some scallops wrought in buttonhole stitch on the dress goods, and ribbons of various kinds, the richest uncut velvet ribbon appearing in loops and bows, with great sashes of heavy brocades and of moire.
The revived flounces are wide, and in groups of three gathered across the back breadths, covering the skirt from belt to foot in place of drapery, or else they are on one side, usually the left, forming a panel next the long side of an apron, or there may be three flounces up each side of the skirt, with an apron between that is pointed in the middle.
The tucks of these new gowns are only the fourth of an inch wide, and are lengthwise in the sides of the skirt from the belt down to within eight or ten inches of the foot, where they stop, and the material below forms a flounce, which is also tucked across. The flounces across the back of the skirt have each twelve to twenty of these quarter inch tucks. There are also many tucks of these narrow widths, with the thread which tucks them drawn to gather the tuck. These form a yoke on the belted waist, and a pointed yoke like space on the front of the skirt just below the belt, also diagonal bands or pocket like pieces, on the sides of the skirt. The back breadths of skirts that are not flounced have pleats thickly folded down the middle and are taken up the belt on each side in jabot folds.
Other lawn dresses have kilt pleated skirts with a wide hem and inch wide tucks, while the back is draped in burnoose folds at the top precisely as wool dresses are. The foundation skirts of colored lawn dresses made by French modistes are of white cambric, on which a pink cambric flounce is set both inside and outside as a balayeuse. Thicker percales with stripes or figures have plain percale foundation skirts, on which are one or two ruffles of the plain percale merely pinked on the edges. A hair cushion for a bustle is covered with the percale of the dress and there are steels across the foundation skirt.

Shoes for the Seashore.

In the accompanying cuts appear illustrations of two convenient styles of bathing shoes, the remaining figure being that of a walking shoe for the seaside. The first named

SEASHORE SHOES.

are exceedingly practical, being made of canvas and trimmed with braid. The useful shoe, shown in the cut, is of gray sailcloth, lined and trimmed with light leather, stitched with white silk. The ribbon that laces up the front of the shoe is of the same color as is the leather.

Fashion Notes.

Transparent dress materials are made up over linings of tinted surah silk.
Tinsel is again used as a material for hats and bonnets.
Silk warp cashmere and moire of a shimmering gray tint forms a beautiful afternoon costume.
When a lady wants a serviceable black silk dress that will not soon go out of fashion she is advised to select either faille Francaise or Bengaline silk for the material.
The prettiest hats for girls from 13 to 14 years of age have low crowns and broad brims, and can be bent into almost any desired shape. Ostrich feathers are the favorite trimming, and a tuft of them is sometimes used resting on a velvet band inside the brim.
The lisse handkerchiefs, which seemed so utterly useless when they first appeared, are used as a material for some exquisite caps, and also as a garniture for headgear for outdoor wear.
Black and white is more than ever a favorite combination. Special novelties of this sort show two different kinds of stuffs, one black, the other white, in the same toilet.

PHYSIOLOGY AND HYGIENE.

The Healthful Way to Live—Food That Makes Strong, Sound Teeth.

For continued health of mind and body and a perfect development of all the muscles, it cannot be disputed that regular exercise in the open air is necessary. As a people, says a writer on this subject, we shut ourselves up too much in our houses. Four or five hours a day in the open air is the allowance needed by every human being. For most women that is impracticable during a great part of the year; but they could and should spend much more time out of doors than they do. In summer there is no reason why they should not habitually sit on their lawns or porches with their work and reading. It would be much healthier than sitting in darkened rooms. In this way the greater part of the day could be spent in the open air.

About the Skin.

Simple as the skin appears to be, it is very complicated, and plays an important part in the working of the physical system. Its glands secrete the oil that keeps the surface soft and supple. Another set of its glands pour out a fluid, the evaporation of which enables the body to maintain its proper heat amid the many sudden changes of the atmospheric temperature.
It is one of the eliminating organs for expelling from the system waste and poisonous matter. Its network of nerves is the source of sensation that recognizes the presence and qualities of external objects, that is, of the sense of touch.
It consists of three parts. The inmost is the seat of color. The middle, a tough, elastic and fibrous membrane, is the true skin, and is the seat of the nerves of touch. The outmost, a transparent and horny film, is itself wholly without sensation, and protects the sensitive skin below.
The human nail and the horse's hoof are merely modifications of this, which is called the epidermis. So complicated an organ is exposed to many ailments.

Tooth Building.

According to a Brooklyn dentist, oatmeal is one of the best foods for supplying the teeth with nourishment. It makes the dentine, cementum and enamel strong, flint like and able to resist all forms of decay. If you have children never allow any white bread upon your table. Graham bread is made of whole wheat ground, not bolted, so that the bran, which contains the minute quantities of lime, is present. To make a good, wholesome, nourishing bread, take two bowls of wheatmeal and one bowl of white or bolted flour, and make by the usual process. Nothing is superior to Boston brown bread for bone and tooth building. This is made of ryemeal and cornmeal. Baked beans, too, have a considerable supply of these lime salts, and should be on your tables, hot or cold, at least three times a week. In brushing the teeth, always brush up and down, from the gum instead of across. Brush away from the gum and on the grinding surfaces of your teeth.

When Massage is Valuable.

Massage treatment has excited much attention of late, and, owing to ignorance of its real value, it is by many regarded as a cure for every kind of disease. Dr. William Murrell states, however, that, as a matter of fact, its sphere of action is very limited. If carried out under the direction of a scientific physician, who has had experience in this mode of treatment, it yields excellent results; but if allowed to drift into the hands of an ignorant empiric, it soon degenerates into the most arrant quackery.

A Simple Remedy for Rheumatism.

One who has seen the following simple remedy tried in a case of acute rheumatism, with painful swelling in the feet, says that it quickly removed the agonizing pain. Into one quart of quite hot milk stir an ounce of alum; this makes curds and whey. Bathe the affected parts with the whey until cold. In the meantime keep the curds hot, and, after bathing, put them on as a poultice and wrap in flannel.

Cure for a Stye.

A French physician recommends the following treatment for that most unpleasant little affection, a stye. Dissolve one part of boracic acid in thirty parts of distilled water, and drop on some of this solution with a wetted piece of wadding, several times a day. It is said not only to effect a cure, but to prevent a return of the trouble.

Agreeable Cosmetics.

A harmless lotion for freckles consists of orange flower water, one pint; glycerine, one ounce; borax, one dram.
For skins to which glycerine is not agreeable the following answers equally well: Borax, three grains; rose water, five drams; orange flower water, five drams.

SOCIAL ETIQUETTE.

Manners and Customs Practiced in Polite Society.

Notes as a general rule require an immediate reply, and a considerate person will send an early answer to a letter from a stranger or a casual acquaintance. There was a time when, if a stranger wrote a letter that required an answer, he inclosed the postage to prepay its delivery, but a recognized authority on the customs of the best society affirms that in these days of inexpensive mail service such an inclosure would be an offense, except between business men. The return to the fine old custom of sealing letters of friendship and courtesy and ceremonious notes of all sorts, with wax, affords an opportunity for the exercise of taste and the expression of sentiment, as the seal used may be an initial, a crest, a monogram, a motto, a favorite ring or the like. When a writer is in mourning a commendable style is the sealing of letters with black wax instead of using black bordered stationery.

A New Custom for Bridesmaids.

The newest fashion is for bridesmaids to carry delicate fancy baskets filled with flowers and tied with bright ribbons instead of the bouquet, so long customary. The bride, however, still carries the favored nosegay, unless it be in a few exceptional cases where an ivory bound prayer book takes its place.

A Good Rule for the Many.

Eccentricities are generally indications of weakness, vanity or a badly balanced brain. It is usually wise to do as other people do, dress as other people dress, and in all things conform to established usages. In etiquette it is well to follow what is recognized as the fashion, yet we should remember in all things to follow the fashion with discretion.

Points Here and There.

It is considered unlucky and inappropriate to wear mourning at a wedding.
One invitation to dinner is better than many cards as a social compliment.
Ices may be served at lawn parties in small paper cups.
Invitations to a dinner are always in the name of both host and hostess, but invitations to a ball, "at home," a tea or garden party are in the name of the hostess alone.

ALL AROUND THE HOUSE.

Novel and Charming Hangings for Summer Cottages.

Pretty summer hangings mentioned by The Art Interchange as among decorative novelties are Bombay cotton cross stripes of gay coloring. Generally speaking, the ground of these is of some soft shade of red cross striped by another shade of red or soft yellow or by bars of blue and white; these hangings are charming for summer cottage decoration.
Dhurra curtains are another novelty that will doubtless prove popular; they are composed of raw silk and cotton and show softly colored grounds crossed by bars of various gentle and rich colors combined. Among the grounds that give the reigning color effect are golden olive, tan, deep dull blue, cafe au lait and wine color. These curtains have a long twisted fringe at one side and at the top, and are exactly alike on both sides, needing no lining and being neither very heavy nor very light.

Grape Fruit Properly Prepared.

In the last few summers the delicious and healthful fruit known as grape fruit has begun to be more generally used. Owing to the fact that one must know just how to eat it, in order to find it agreeable, it is sometimes disliked on a first trial. Prepared according to the following directions given by Catherine Owens, it will prove of refreshing acid flavor, with a slight tinge of bitter, very pleasant to most palates. Peel as you would an orange, divide it into figs or sections, then from each section remove the pulp, taking care that not a bit of the white skin or pip comes with it. This is not difficult, as the pulp is firm like a lemon, but it does require care, for a very little of the skin would give its intense bitter to the salad; leave the pulp in pieces, laying it as you do it in a glass dish or salad bowl; when the pulp is entirely clear of the pips, skin or pith, sift powdered sugar thickly over it and set the dish on ice. It is best eaten at the beginning of breakfast. The next morning the dish will be half full of juice and the fruit will have taken on a pretty pink tinge.

Ornamental Chair Backs.

Chair backs, to be slipped over the backs of plain dining chairs, are decorative as well as a protection to delicate dresses during the summer. Ornamental ones are made of Swiss, dotted or plain, and have the owners' initials embroidered in outline stitch. More serviceable ones consist of two pieces of bright cretonne laid together and bound with ribbon and ornamented with bows at the two upper corners.

Silver Table Ware.

In silver table ware have appeared no radical changes; low forms for the most part prevail and many English patterns are copied. Oxidizing, while employed to some extent, has given way largely to the bright or white finish. The disposition is to a combination of styles in one article, as a bright and satin finish, fluted and bright finish or a repousse finish with bright bands.

THE FLUTED FINISH.

The accompanying cut shows a popular design in tea sets, both as regards form and finish. As will be seen there is a combination of the fluted pattern and the plain or bright finish, the former appearing in the body of the pieces, while the tops, handles, etc., are plain. Other favorite modes of decoration appear to be the repousse in white finish, embossing, engraving and chasing. Chasing and engraving are so admirably wrought together that it is often difficult to distinguish these; just as the finer grades of embossing often pass to the unfinitiated for the hammered repousse. Applied work is still used, and there is a decided disposition to bright cut ornamentation on white finish. What is known as the quilted or cushion ornamentation is seen in some of the new plated ware, and is decidedly pleasing in effect. This pattern, as the name suggests, shows little raised diamonds, such as are seen in old time quilted work. Water pitchers in the quilted pattern, with bright trimmings, are decidedly attractive.

Preserving Cut Flowers Fresh.

Cut flowers may be preserved fresh, it is said, for a long time in the following manner: Get a glass shade and place it on a non-porous vessel to form a stand; put water round the bottom to keep the shade air tight, then procure fresh cut blossoms, put them in water immediately, drop into the water in which the flowers are placed a small quantity of spirit of chloroform, and place the shade over them at once. The flowers thus treated, some writer says, will keep fresh for months; but one should hardly expect they would be in a very fresh condition after their four weeks' confinement, but the new preserving process is worth trying. Care should be taken to have all in readiness. As soon as the chloroform is put in, place the shade over them, and water always kept round the bottom. A large soup plate would do for this.

Water for Making Tea and Coffee.

An important point, and one which Good Housekeeping says is often overlooked even by intelligent housekeepers, is that water should be freshly boiled in a clean kettle. Water, in boiling, loses the air or gases which give it a fresh taste and sparkling appearance. It should be used as soon as boiled, or it becomes flat and tasteless. A brown substance is deposited on the inside of the kettle, and this, if allowed to accumulate, imparts an unpleasant taste to the water; yet there are many housekeepers, exquisitely neat in many ways, who seldom wash the inside of a teakettle. It is an excellent plan to keep a small kettle to be used only in boiling water for tea or coffee. Wash and wipe it carefully every time it is used.

To Rid a Room of Flies.

If pyrethrum or Persian insect powder is sifted or blown with a little bellows over the walls, ceiling, about the windows, etc., in a closed room at night, the flies will be found dead and may be swept up the next morning. But it will be necessary to repeat the operation nearly every day. Chemists recommend the following as a safe and efficient mixture which flies will drink with avidity and by which they are soon destroyed: Small quassia chips, one-quarter ounce; water, one pint; boil ten minutes, strain and sweeten well with molasses or brown sugar. Door and window screens of wire or musquito netting furnish the most efficient and agreeable protection against flies.

Facts Worth Knowing.

A solution of oxalic acid cleans old brass.
Copperas dissolved in boiling water quickly cleanses iron sinks and drain pipes.
Soaping well and covering the spots with powdered chalk removes mildew.
A very hot solution of soda removes paint splashes from the windows.

ARTESIAN WATER.

It has lately been demonstrated in a practical manner that artesian water exists in large quantities throughout Sonoma Valley and fine flowing wells have been tapped at from 90 to 200 feet from the surface. Several of these wells have been bored in this city within the past three months. One, belonging to the Verano Company, at a depth of 204 feet, gives a daily flow of 280,000 gallons. Another, at a depth of 90 feet, raises a stream of water sixteen feet from the ground that flows 28,000 gallons per 24 hours. When it is taken into consideration that this latter well cost less than $130 it can readily be seen that the windmill will have to go, at least in so far as this valley is concerned. These wells cost less than a windmill, flow night and day, wind or no wind, and never get out of gear. Unlike artesian wells in the southern part of the State the water from Sonoma Valley wells is all that could be desired for domestic purposes, and as before remarked can be obtained at depths varying from 90 to 200 feet, whereas in other sections of the State it is seldom a flowing well can be found at a less depth than 700 feet, and the water is so impregnated with minerals as to be almost unfit for household purposes and is used principally for irrigating.

Mr. F. W. Bean, a practical well-borer and a gentleman who has had years' of experience in boring for artesian water, after sinking a number of wells in this valley, unhesitatingly states that there is no place in the State that can compare with this section in the purity and abundance of its water supply and the small cost of tapping flowing wells. Artesian water can be obtained anywhere, and wells located a hundred yards apart are not in the least affected by each other. There is a natural artesian belt extending from Sonoma on the east through Verano and to Glen Ellen on the west where excellent flowing wells can be obtained at depths ranging from 75 to 200 feet. Of course the deeper the well the greater the flow of water. At 75 or 100 feet from the surface the owner of a lot or small farm can secure all the water necessary for domestic and garden purposes at the small outlay of from $125 to $200, which is but another argument why Sonoma Valley with her scenery, climate, richness of soil and accessibility to San Francisco is bound to become at no distant day the suburban home of its merchants and business men.

ARCHBISHOP ALEMANY, for many years the head of the Catholic Church on this coast, died at Valencia, Spain, on the 8th ult. Joseph Sadoc Alemany belonged to the Dominican order of priests. He was born in the town of Vich, Province of Catalonia, Spain, in 1812. At this place he was ordained a priest. In 1847 he came to the United States and located at Nashville, Tenn. It was in 1850 that he was elected Bishop of Monterey. During the year 1853 he was raised to the Archdiocese of San Francisco, which office he held with honor for thirty-two years. His retirement from the high office as Archbishop was at his own solicitation and was formally announced to the Catholic clergy on May 19, 1885. He retired owing to his failing health.

Renews Her Youth.

Mrs. Phœbe Chesley, Peterson, Clay Co., Iowa, tells the following remarkable story, the truth of which is vouched for by the residents of the town: "I am 73 years old, have been troubled with kidney complaint and lameness for many years; could not dress myself without help. Now I am free from all pain and soreness, and am able to do all my own housework. I owe my thanks to Electric Bitters for having renewed my youth, and removed completely all disease and pain." ST. HELENA'S DISGRACE.

THE lynching of an eighteen-year-old boy by the citizens of St. Helena last Saturday night will forever remain a blot on that town. The victim of the mob was one Wright, who had shot a young man named Vann, while the latter was engaged in the unlawful act of attempting to gain forcible entrance into a house of ill-fame kept by Wright's sister. In the cold eyes of the law the shooting of Vann was not murder. Every man's house is considered his castle and he has a right to defend it against the assults of midnight roisterers, and no matter how deplorable the killing may have been Wright could never been convicted of a higher crime than manslaughter. That the Wright's were desreputable characters does not in the least palliate the offense of the mob. Their victim was in the strong arms of the law which should at all times be upheld by every law-abiding citizen. The act of this St. Helena mob was as cowardly as it was unlawful. A band of men emboldened by strong drink and superior numbers assault a jail, around which no guard is stationed, and seize a weak, puny, eighteen-year-old boy and murder him—for what? For the commission of a crime which for brutality and wantonness does not begin to compare with the dark and domnable deed committed by his executioners. If Wright was a murderer the mob that killed him were more than murderers. If discovered they should be made to pay the extreme penalty of their atrocious deed.

Suicide at Novato.

Jose Machado, Portuguese tenant of F. C. Delong, committed suicide at Novato last Thursday under peculiar circumstances. Marchado had been married about five months to a young girl of his nationality, and according to the testimony given at the inquest, his domestic relations were not of the happiest. On several occasions he had struck his wife, and on Thursday morning beat her severely, causing the blood to flow from her mouth and nose. For this she had him arrested and the Justice of the Peace placed him under bonds of $1,000 to keep the peace. In the afternoon both returned to the ranch house, where they had more words, the woman refusing to enter a room with him alone. Machado, about 3 o'clock, told the hired man to prepare dinner and he would drive in the cows. After waiting for some time, surprised at the non-appearance of the cattle, the hired man went out to look for his employer. About a mile from the house, he found his body suspended from the limb of a tree. The fellow was too terror stricken to approach the ghastly object, and scampered off to rouse the neighborhood. When he returned with assistance, life was, of course, extinct. A common piece of bale rope formed the fatal noose. The man had evidently climbed the tree, tied the rope to the limb, slipped his head through the noose and swung off. His feet were only four inches from the ground. An open clasp knife lying immediately beneath him, seemed to indicate that he had this implement in hand to cut himself down in case he changed his mind after the rope tightened. It probably fell from his grasp at the first shock. No papers of any kind were left to throw light on the mysterious affair.—*Democrat.*

Washington Township—L. G. Ellis, P. Young, T. B. Stone.

The report of the Committee on order of business was made by F. W. Shattuck, of Petaluma, recommending the election of Robt. Howe, as permanent President, the election of Vice-President, Secretary and assistant Secretary and Sergeant-at-arms; the election of fifteen delegates to the State Convention, a County Central Committee of eighteen members, and favoring the postponement of the nomination of county officers until some future date. The report of the committee was unanimously adopted.

Robert Howe was chosen permanent President, Chas. Connell, permanent Secretary and Emmet Seawell, assistant Secretary.

The Committee on Resolutions reported the following which was adopted:

WHEREAS, The Democratic party of Sonoma county in convention assembled reaffirms its faith it the principles of Democracy as laid down by the fathers of the republic and pledges anew the party for the people as against all forms of centralized government. It congratulates the people upon a return to economical methods of government under the administration of Grover Cleveland.

Resolved, That the Democracy endorse the policy of the President in his efforts to restore the public domain to the people in calling the aided railroads to an accounting with the Government; in relieving the people of unjust war taxes and the exactions of trusts and monopolies; in the disposition of the Chinese question by treaty and in his zealous, wise and conservative course in dealing in all matters pertaining to the interests of the country.

Resolved, That we endorse and commend the policy of the Democratic leaders in the halls of Congress, and more especially the zeal, activity and energy displayed in the discharge of his duty by the member from this district, Hon. T. L. Thompson.

Resolved, That in the death of Governor Bartlett, the Democracy has lost a true and tried friend of the people.

The following resolution, offered by G. W. Morgan, was adopted.

Resolved, That we request our delegates to the State Convention to vote for the nomination of Hon. T. L. Thompson to Congress from this district, and that they use all honorable means to that end.

Pursuant to the recommendation of the committee on order of business, the convention resolved itself into assembly districts to elect delegates to the State Convention.

The delegates from the several districts reported elections as follows:

23d District—J. D. Connolly, R. Murphy, John Markley, J. A. Mead, G. W. Morgan.

24th District—B. S. Young, W. Hunter, A. C. Shelton, G. R. Miller, C. H. Holmes.

25th District—E. Lippitt, D. Ashley, F. Lapoint, Robert Howe, Conrad Temple.

The elections were ratified by the convention.

The convention then began the election of the County Central Committee, T. J. Brooke and Mat Doyle of Santa Rosa, Henry Lawrence of Petaluma and Josh Seawell of Healdsburg were selected members at large. From the various townships the following were elected: Analy, Bruce, Cockrill; Bodega, Thomas Furlong; Cloverdale, R. L. Smith; Knight's Valley, C. H. Holmes; Mendocino, Martin Hootin; Ocean, W. O'Farrell; Petaluma, J. F. Houx; Russian River, Lee Laughlin; Santa Rosa, W. T. Hunter; Redwood, L. D. Yarbrough; Sonoma, G. W. Sparks; Salt Point, G. W. Morgan; Vallejo, J. B. Long; Washington, A. H. Stites.

G. W. Morgan of Salt Point, moved that the next meeting of the Convention be held in Petaluma. The roll call resulted in the defeat of the motion, and Santa Rosa was decided upon as the place of meeting. The convention then adjourned.

A WOMAN'S WAY.

A Startling Business Proposition.

A little over six weeks ago Mrs. Fowler of 327 Ellis street, San Francisco, stopped in at a leading city druggist's to ask what effect Joy's Vegetable Sarsaparilla, about which she had heard so much recently, would have in cases of dyspepsia and sick headache. She was assured that in most cases it would relieve both. She was, however, so incredulous that finally the druggist gave her a bottle, not to be paid for unless it effected a cure. A proposition so startlingly practical has seldom, if ever before, been made. The following just received is the convincing conclusion, and tells its own story:

San Francisco, February 8, 1888.

DEAR SIR:—I write to admit that, notwithstanding my misgivings, Joy's Vegetable Sarsaparilla did all that you promised. I had tried so many prescriptions, to no purpose, that I had come to believe nothing would relieve my dyspepsia and sick headaches, but I have not had a return of either since I commenced taking it. I believe I am permanently cured, but will, out of an abundance of caution, continue to take it regularly for a while yet. You have my permission to make this public, for it is my belief that a remedy that will cure dyspepsia and prevent sick headaches should be generally known. Respectfully,

Mrs. M. Fowler,
327 Ellis street.

A LUCKY TRIAL.

DEAR SIR: It affords me great pleasure to send you this voluntary statement of my experience in testing the merits of Joy's Sarsaparilla. For the past five years I have been troubled with an exceedingly sluggish liver, and within the past two years it has brought within its trail a thoroughly disordered stomach, including loss of appetite and distress after eating, pains in the back and kidneys, and boils around my neck and face. I have tried several remedies which are advertised as specially for the liver, and never could get more than temporary relief of about a week or two. I was recommended to try a bottle of Joy's Vegetable Sarsaparilla as a test, and while taking the first bottle I became convinced of its merits for I could feel it was working a change in me. I have taken five bottles, and during that time my troubles have left me. Everything is working full and regular, in fact it has cleansed, purified and braced me up generally. I feel like a new man. You are at perfect liberty to use this as you see fit, or you can refer whom you please to

W. G. BADGER,

The treatment of many thousands of cases of those chronic weaknesses and distressing ailments peculiar to females, at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., has afforded a vast experience in nicely adapting and thoroughly testing remedies for the cure of woman's peculiar maladies.

Dr. Pierce's Favorite Prescription is the outgrowth, or result, of this great and valuable experience. Thousands of testimonials, received from patients and from physicians who have tested it in the more aggravated and obstinate cases which had baffled their skill, prove it to be the most wonderful remedy ever devised for the relief and cure of suffering women. It is not recommended as a "cure-all," but as a most perfect Specific for woman's peculiar ailments.

As a powerful, invigorating tonic, it imparts strength to the whole system, and to the womb and its appendages in particular. For overworked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," housekeepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequaled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nervine, "Favorite Prescription" is unequaled and is invaluable in allaying and subduing nervous excitability, irritability, exhaustion, prostration, hysteria, spasms and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the womb. It induces refreshing sleep and relieves mental anxiety and despondency.

Dr. Pierce's Favorite Prescription is a legitimate medicine, carefully compounded by an experienced and skillful physician, and adapted to woman's delicate organization. It is purely vegetable in its composition and perfectly harmless in its effects in any condition of the system. For morning sickness, or nausea, from whatever cause arising, weak stomach, indigestion, dyspepsia and kindred symptoms, its use, in small doses, will prove very beneficial.

"Favorite Prescription" is a positive cure for the most complicated and obstinate cases of leucorrhea, excessive flowing, painful menstruation, unnatural suppressions, prolapsus, or falling of the womb, weak back, "female weakness," anteversion, retroversion, bearing-down sensations, chronic congestion, inflammation and ulceration of the womb, inflammation, pain and tenderness in ovaries, accompanied with "internal heat."

As a regulator and promoter of functional action, at that critical period of change from girlhood to womanhood, "Favorite Prescription" is a perfectly safe remedial agent, and can produce only good results. It is equally efficacious and valuable in its effects when taken for those disorders and derangements incident to that later and most critical period, known as "The Change of Life."

"Favorite Prescription," when taken in connection with the use of Dr. Pierce's Golden Medical Discovery, and small laxative doses of Dr. Pierce's Purgative Pellets (Little Liver Pills), cures Liver, Kidney and Bladder diseases. Their combined use also removes blood taints, and abolishes cancerous and scrofulous humors from the system.

"Favorite Prescription" is the only medicine for women, sold by druggists, **under a positive guarantee,** from the manufacturers, that it will give satisfaction in every case, or money will be refunded. This guarantee has been printed on the bottle-wrapper, and faithfully carried out for many years.

Large bottles (100 doses) $1.00, or six bottles for $5.00.

The work is being superintended by Roadmaster McGill. Work on the $3,800 bridge to be used in conjunction with the road is progressing rapidly and in the course of a month the new road will be thrown open for the use of the public.

The card of Mr. F. W. Bean, one of the most skillful artesian well-borers in this State, appears in another column. Mr. Bean has been eminently successful in boring for artesian water in this valley since coming here three months ago, as the numerous artesian wells in this vicinity will testify to. Parties desiring an unceasing flow of pure cool water at comparatively small cost should secure the services of this gentleman. Orders left at the Union Hotel will be promptly attended to.

Going Ahead.

Over five hundred people from San Francisco visited the new town site of Verano last Saturday. They were hospitably entertained by Directors Bacon and Maxwell. The day was a most beautiful one and the excursionists were enraptured with the new town and its surroundings. The plans for the Hotel Verano are completed and show a most costly and imposing edifice. The structure will be built on or near the place where formerly stood the Burns residence, and will command a magnificent view of the valley and surrounding mountains. A small army of men and teams are employed in grading roads, avenues and making other improvements, and our people look on in surprise at the gigantic work being done by the Verano Company and can hardly realize that capital and enterprise has at last been attracted to this valley, and that the boom has arrived and come to stay.

"Eddication" Not One of the Requirements.

The following letter written by a Kern county Constable to a gentleman in this city would seem to indicate that "eddication" is not one of the requirements which the people of Southern California exact from their puplic servants. We print the letter *verbatim et literatum:*

Deer Sir—eye Received yours at hand wantinge mee tew return $25 dolors fer Expences. dew yew thinke a man can Run all over this County & Pay 5 dolors a dey for a team and then pay it tew atorneys, if yew Realy thinke sow Lett mee hear your opinon. if yew Realy thinke thet is just Pleas answer By Return male. Sonoma Valley Exhibit.

The Sonoma Valley Exhibit was turned over to the State Board of Trade last Thursday by Geo. H. Maxwell, who has had the exhibition the Palace Hotel, San Francisco, the past nine months. During that time the products of Sonoma Valley have been viewed by thousands from all parts of the world. The exhibit will continue to remain in the hands of its present custodians, at the option of the Exhibit Committee, as it is still owned and controlled by the people of this valley.

A Graceful Compliment.

The selection of Hon. Robt. Howe of this place as presiding officer over the County Democratic Convention which met in Santa Rosa last week was a graceful compliment to Sonoma and a fitting recognition of the worth of a man than whom none has a cleaner political record covering a period of over a quarter of a century and embracing many positions of public trust.

The Donahue Extension.

Track-laying on the Marin and Napa Railroad (the Donahue extension) commenced last Monday at Pacheco. The rails are being laid for a broad guage. Whether the Sonoma Valley Narrow Guage Road will be changed to a standard guage when the connection is made, which will be inside of four weeks, is just what no fellow can find out.

The Grape Crop.

The grape crop is very promising. So far the vineyards have suffered no damage from frosts or mildew, but wine-growers will continue to feel uneasy for a week or two, as frosts have been known to damage vineyards as late as the 25th of May, although frost so late in the season is a rarity.

Glen Ellen Gossip.

Good-looking James Cowan and matter-of-fact F. Schieck left for the harvest fields last week.

The Postoffice was removed yesterday to North Glen Ellen.

Quite a number of farmers left for Santa Rosa last Wednesday there to appear as witnesses in the water suit of Hill and Chauvet.

The track-layers on the Santa Rosa and Carquinez Railroad are now within 5 miles of Santa Rosa.

A runaway team at the Los Guilucos last Sunday was the cause of a young lady of the Santa Rosa and Carquinez Railroad camp of breaking her arm and slightly injuring the three other occupants of the carriage.

The excursion and picnic from San Francisco last Tuesday, May 1st, numbered 512 persons and was one of the most orderly and enjoyable ever held here.

We learn that quite a number of campers intend coming here for the Summer. OLD TIMER.

To prevent any evil results from exposure to contagious or infectious diseases, fortify the system by the occasional use—say once a month, or oftener, if necessary, of Frese's Hamburg Tea.

The Occidental Hotel, under the management of Mr. R. D. Moore and his estimable wife, is growing in popularity every day. +

Personal and Social.

Jessie Burris, Cashier of the Sonoma Valley Bank, after a week's vacation in Santa Rosa, resumed his duties last Wednesday.

On Friday evening of last week the Native Sons and Daughters' of the Golden West gave a joint invitation social at Union Hall. The evening's exercises opened with a literary programme of an excellent order, after which the floor was cleared for dancing, which was indulged in until after midnight. Light refreshments were served between 11 and 12 o'clock.

The pupils of the San Luis School (Embarcadero) went on a May day picnic last Tuesday to O'Brien's Grove. The children, thirty in number, left the school house at half-past eight in Mr. Robt. Howe's four-horse fruit wagon, which was gaily decorated for the occasion. They arrived at their destination at 10:30 A. M., where they proceeded to crown, with fitting ceremony, Miss Meta Stefen for their queen. This little lady looked very sweet and happy, as she sat on her throne of ferns and roses. The Maids of Honor were Mary Smyth, Anna Wadsworth, Mamie Church, Josephine Kiser, Agnes Watt and Maggie Church.

Sabbath School Convention.

The Sonoma County Sabbath School Association held its fourth annual convention in Petaluma on Friday and Saturday of last week. The proceedings were very interesting and were participated in by a large number of delegates. Before adjourning the following officers were elected: President, Rev. H. H. Wykoff, Sonoma; Vice-President, E. W. Woolsey, Fulton; Secretary, Miss Ida Jewell, Petaluma; Treasurer, L. M. Alexander, Santa Rosa. Executive Committee—S. J. Alley, Healdsburg; Mrs. J. A. Kleiser, Cloverdale; Mrs. L. M. Hutton, Santa Rosa; Rev. J. P. Taylor, Forestville. District Superintendents—Rev. E. H. King, Sonoma; C. Alexander, Healdsburg; Rev. E. A. Winning, Petaluma; E. H. Smyth, Santa Rosa; William Crawford, Cloverdale. The next meeting will be held in this city.

Of Importance to Teachers.

The State Superintendent has rendered a decision concerning the record of half-day absences in our public schools, which will be of important interest to every teacher in the county, as the ruling in this respect should be uniform throughout the State. His decision is as follows: "All pupils, or any pupil, absent either in the morning or afternoon, should be marked as absent one-half day, and present only for the time he is actually there; no account being taken for a shorter time of absence than a half day, except for tardiness. The teacher has no more right to report a pupil present for one-half day when he is absent, than he has to report him present for a whole day under similar circumstances, not even to increase the average daily attendance."

A Fine Artesian Well.

Artesian water was struck by the well-borers on Mr. E. Gilbert's lot, on First street west, on Tuesday of last week, at a depth of 90 feet. The water flows over a pipe sixteen feet above the surface at the rate of 28,000 gallons per 24 hours. It is calculated that at a height of twenty feet the well will throw a half-inch stream. The work of boring the well was done under the supervision of F. W. Bean. The cost of boring was less than $150 and Mr. Gilbert now has the satisfaction of owning a well that is worth ten times that amount. The water is the finest we ever drank.

Worth knowing.

Mr. W. H. Morgan, merchant, Lake City, Fla., was taken with a severe Cold, attended with a distressing Cough and running into Consumption in its first stages. He tried many so-called popular cough remedies and steadily grew worse. Was reduced in flesh, had difficulty in breathing and was unable to sleep. Finally tried Dr. King's New Discovery for Consumption and found immediate relief, and after using about a half dozen bottles found himself well and has had no return of the disease. No other remedy can show so grand a record of cures as Dr. King's New Discovery for Consumption. Guaranteed to do just what is claimed for it. Trial bottles free at E. Wegner's Drug Store.

BOARD OF SUPERVISORS.

MONDAY, May 7th.

The Board of Supervisors met in regular session at 10:20 A. M., at the Court House. Santa Rosa. A full Board was present. Chairman O'Hara presided.

The time of the Board up to the noon adjournment was occupied with the consideration of Road Overseers' reports.

AFTERNOON SESSION.

The Board reassembled at 1 P. M., the members present same as at morning session. The following reports were received and the accompanying bills allowed: Gallant Rains, Petaluma road district, $337; Tim Riley, Knights Valley, $331.07; William O'Farrell, Ocean, $547.80.

On motion of Mr. Connolly, the report of the following officers were received and placed on file: W. N. Seawell, Justice of the Peace, Santa Rosa; J. T. Coffman, Justice of the Peace, Healdsburg; J. F. Hoadley, Justice of the Peace, Cloverdale; L. Brietenbach, Jailer; C. W. Hawkins, Superintendent County Farm; C. A. Riemus, Poundmaster Dry Creek district.

At 5 P. M., the Board adjourned until Tuesday at 9 A. M.

TUESDAY, May 8th.

The Board reconvened this date at 9 A. M., all members present; Chairman O'Hara presiding.

On motion of Mr. Coulter, the petition of E. T. Williams and others representing that a certain obstruction exists in the road between the town of Fulton and the Healdsburg road, was referred to the District Attorney for his opinion.

The time of the Board up to the noon adjournment was occupied with the consideration of bills.

AFTERNOON SESSION.

The Board reassembled at 1 P. M., members present same as at the morning session.

On motion of Mr. Davis, the report of P. L. McGill, Road Overseer of Sonoma road district, was received and placed on file, and the accompanying bill for $847.71 was allowed.

On motion of Mr. Coulter, the report of the viewers appointed to view and lay out a road, petitioned for by Samuel Batten and others, was made the order for Tuesday, June 5th.

On motion, Tuesday, June 6th, was set as the time for taking action on the report of the viewers appointed to view and lay out a private road in Vallejo township, petitioned for by John Hagan.

The remainder of the afternoon was occupied with the consideration of bills, and at 5 P. M., the Board adjourned to visit the County Hospital.

WEDNESDAY, May 9th.

The Board met this date pursuant to adjournment, at call of the chair at 1 P. M., all members present; Chairman O'Hara presiding.

On motion of Mr. Coulter, the bill of F. Johnson for $200 in part payment for the construction of subdivision 3, of the St. Helena road, was allowed.

On motion of Mr. Coulter, the Road Overseer of Fulton road district was ordered to proceed with construction of the Calistoga road via Rincon valley, without regard to the order of the Board heretofore made against the expenditure of more than 60 per cent of the funds of the several road districts during the first eight months of the year.

The time up to the adjourment was occupied in arranging the precincts for the fall election.

Who is Your Best Friend

Your stomach of course. Why? Because if it is out of order you are one of the most miserable creatures living. Give it a fair honorable chance and see if it is not the best friend you have in the end. Don't smoke in the morning. Don't drink in the morning. If you must smoke and drink wait until your stomach is through with breakfast. You can drink more and smoke more in the evening and it will tell on you less. If your food ferments and does not digest right,—if you are troubled with Heartburn, Dizziness of the head, coming up of the food after eating, Biliousness, Indigestion, or any other trouble of the stomach, you had best use Green's August Flower, as no person can use it without immediate relief.

NEW TO-DAY.

Dyspepsia

Makes the lives of many people miserable, causing distress after eating, sour stomach, sick headache, heartburn, loss of appetite, a faint, "all gone" feeling, bad taste, coated tongue, and irregularity of the bowels. Dyspepsia does not get well of itself. It requires careful attention, and a remedy like Hood's Sarsaparilla, which acts gently, yet efficiently. It tones the stomach, regulates the digestion, creates a good appetite, banishes headache, and refreshes the mind.

Distress After Eating

Sick Headache

"I have been troubled with dyspepsia. I had but little appetite, and what I did eat distressed me, or did me little good. After eating I would have a faint or tired, all-gone feeling, as though I had not eaten anything. My trouble was aggravated by my business, painting. Last spring I took Hood's Sarsaparilla, which did me an immense amount of good. It gave me an appetite, and my food relished and satisfied the craving I had previously experienced." GEORGE A. PAGE, Watertown, Mass.

A Ship Canal.

Lyman Bridges, a distinguished civil engineer, visited Petaluma Thursday, in the interest of several capitalists who propose to deepen and widen the creek sufficiently to admit of a larger class of steamers and sailing craft reaching our city than now carry freight from our warehouses. It is proposed to widen the channel to a breadth of 100 feet and so dredge as to insure a depth of 12 feet of water. It is a part of the plan to construct a basin in the city large enough for turning room and discharge for vessels. The canal will extend from Washington street bridge to some point below the railroad bridge, where there is a prepetual depth of water for vessels of the size for which the canal will be constructed. It is understood that this is but a part of a system, which includes a railroad to Sebastopol, and beyond, with all needed facilities for direct and cheap communication with San Francisco three times a day. Mr. Bridges expressed great surprise that the work contemplated would prove of no greater magnitude. The excavations will be through moist earth, with no rocks to remove.—Argus.

That Highway of Nations,

The broad Atlantic, is ever a storms thoroughfare. You blow the winds ever so fiercely, and ride the waves ever so loftily, seamen must man the good ships, tourists will brave the passage, and commercial travelers and buyers must visit the centres of foreign trade and manufacture. That atrocious malady, sea-sickness, together with colicky pains and much inward uneasiness is often endured when Hostetter's Stomach Bitters would have fortified the voyagers against them. Sea captains, and in fact all salts and veteran travelers are acquainted with the protective value of this estimable preventive and remedy, and are rarely unprovided with it. Emigrants to the far West should use it as a safeguard against Malaria. Seek the aid of the Bitters for dyspepsia, constipation, liver complaint, kidney troubles, and all ailments that impair the harmonious and vigorous action of the vital powers.

SYMPTOMS.

Loss of Appetite, Bad Breath, Bowels Costive, Headache, with dull, heavy sensation; pain under shoulder-blade, often mistaken for Rheumatism; fullness after eating; disinclination to exertion of body or mind; Irritability of Temper; Low Spirits (or the Blues); Restlessness, and a sensation of having left undone something which ought to have been done; Weariness; Dizziness; dots before the eyes; highly-colored urine; fitful dreams; Constipation, etc. Not all, but always some of these symptoms indicate want of action of the Liver. For a safe, reliable remedy that can do no harm and has never been known to fail to do good is Simmons Liver Regulator.

"Simmons Liver Regulator acts like a charm on the Liver without debilitating and without any of the evil effects of mercury. Have tried it thoroughly, and speak what I know.—REV. S. GARDNER, Atapulgus, Ga.

PERSONAL AND IMPERSONAL.

—Phil Armour surveys his varied affairs by the aid of an account book, six feet wide when closed. Opened it stretches from one end of his little private office to the other.

—Robert McCrone of Thompsonville, Conn., is the most consistent vegetarian in the Nutmeg State. He has eaten no animal food for over forty years. He is now sixty-five and in perfect health.

—An eccentric person who died recently in Barren County, Kentucky, had not seen his father or brother for thirty years, although living within three miles of them and being on good terms with them.

—M. Chevreul, the noted scientist of France, who is one hundred and two years old, has been sitting to a sculptor for a bust. "Be kind enough," he said to the artist, "not to make me look any older than I am."

—Mr. C. O. D. Kelly, now living in San Francisco, is the sole survivor of Sam Houston's famous spy company in the Texan war of 1835. He carried the tidings of the massacre of the Alamo, in 1836, to New Orleans, and from thence to New York. He was born in 1802, and is now in his eighty-sixth year.

—Senator Chace, of Rhode Island, is the only member of the United States Senate who always wears a swallow-tailed coat. When a Senator recently appeared at a Washington dinner in conventional evening dress a dignified punster remarked: "Ah, there is X. in extremely Chaced attire!"

—Monsieur Joseph, Vanderbilt's new ten thousand dollar French cook, indignantly repudiates that cognomen of the kitchen, and lays claim to the more aristocratic and high-sounding title of "gastronomical director." He says he does not come to cook, but to say what shall be cooked and how it is to be done.

—A young man who died in Fresno, Cal., recently, owed his death to excessive cigarette smoking. He was only seventeen years old, and a fine specimen of physical manhood, but his system became saturated with the poison, paralysis ensued, and all the efforts of his physician were powerless to help him.

—John L. Sullivan once drove a street car in Boston for the paltry sum of two dollars per day. It was while engaged in this occupation that he was discovered by John B. McCormick, sporting editor of the Cincinnati *Enquirer*, by whom he was introduced into the pugilistic world in which he has since made so much fame and money.

—Mrs. Cleveland has given up writing autograph letters. The demands have grown too heavy. When she first went to the White House she acknowledged every book, flower or compliment by a pretty autograph letter. Now she has to dictate her correspondence and has all she can do to sign her name to letters of acknowledgment and the other answers to her large correspondence.

"A LITTLE NONSENSE."

—The dude is not muscular, but when he strikes an attitude he cripples it for life.—*Binghamton Leader.*

—There is no necessity that a man should inherit his father's talents if he inherits his father's shekels.—*New Haven News.*

—An old man who never did any thing worse in his youth than throw a snowball at a dead cat, will amuse you by the hour telling you what a bad boy he was.

—Calumny, says a philospher, is like a coal; if it does not burn it will soil. Yes, and calumny warms a man about as well as coal, too. Still, we prefer coal.—*Life.*

—"The times will improve when tobogganing is over," said Jones. "How's that?" asked Smith. "Well, we won't see so many people going down hill then."—*Boston Courier.*

—"Aggie, come yer an' poke de baby up—he mus'n't go sleep now, kase I go to de sociable dis evenin', An' leave him with his pa, I doan wan' him to wake up."—*Harper's Bazar.*

—A priest is called in to see a poor old hackman who is on his death-bed. The priest (solemnly) — "Have you been in the habit of going to church?" The hackman (faintly)—"No; but [his face brightening] I've driven lots of people there."—*Truth.*

—Bobby—"Didn't you have an umbrella with you last night, Mr. Featherly?" Mr. Featherly—"Umbrella? Why, it didn't rain last night." "Funny," remarked Bobby, dismissing the subject as if of no special importance; "I heard pa tell ma that he saw you about eleven last night, and that you were pretty well soaked."—*Texas Siftings.*

—Preparing for the worst—"Mourning goods, please," she said to the floor-walker. "Yes, madam, this way, if you will; and then he added, feelingly, "death is a sad thing, madam." "It is, indeed," responded the lady, "I'll not make any purchases this morning. I only want to see the latest things you have in the mourning line; my husband is a very sick man."—*Traveler's Magazine.*

—A professor in a California college was stricken with lockjaw during a Latin recitation some three weeks ago and has not been able to speak since. He was teaching the continental pronunciation and had just told the class that Toolius Kaiser said "Wany, weedy, weeky," when the shock came, and it is quite generally believed that the outraged spirit of the libeled old Roman landed his traducer a sollaker in the jaw with his mailed hand.—*Burdette.*

I CURE FITS!

When I say CURE I do not mean merely to stop them for a time, and then have them return again. I MEAN A RADICAL CURE. I have made the disease of

FITS, EPILEPSY or FALLING SICKNESS,

A life long study. I WARRANT my remedy to CURE the worst cases. Because others have failed is no reason for not now receiving a cure. Send at once for a treatise and a FREE BOTTLE of my INFALLIBLE REMEDY. Give Express and Post Office. It costs you nothing for a trial, and it will cure you. Address
